# What is CBD?

CBD stands for cannabidiol. After THC (the psychoactive compound found in Cannabis), it is the second most prevalent and researched of the active ingredients of Cannabis. While CBD is an essential component of Medical Cannabis, it is derived directly from the hemp plant, which is high in CBD and low in THC. CBD itself, does not cause a 'high'. According to a report from the World Health Organization, 'In humans, CBD exhibits no effects indicative of any abuse or dependence potential... To date, there is no evidence of public health related problems associated with the use of pure CBD.'

## How can CBD help me?

Aside from using CBD as a daily supplement to keep your body in a state of homeostasis (maintaining a stable, relatively constant internal environment), CBD is also known to assist with the treatment of anxiety, depression, inflammation, stress, insomnia and pain. With little known side-effects, CBD is undoubtedly the healthier and safer natural alternative treatment.

Elixir CBD is 100% True Zero THC Free. This means that our products do NOT contain any THC (the psychoactive compound in Cannabis), and therefore will not make one 'high'.

If you are ever unsure about whether you should be taking CBD, or if you are already taking other medication or treatment, always consult with your medical practitioner first. CBD is a new and exciting world but is never a replacement for professional medical advice or care.*

## HOW DO I CHOOSE BETWEEN AN ISOLATE AND A BROAD SPECTRUM:

### ISOLATE

Isolate is when just CBD (one of many Cannabinoids found in Cannabis) is added to the oil. One still enjoys all the benefits of CBD.

Isolate is more affordable and makes CBD usage possible for all.

### BROAD SPECTRUM

Broad Spectrum is when CBD **PLUS** other trace Cannabinoids are added to the oil. One enjoys all the benefits of CBD as well as the benefits of these other Cannabinoids. Broad Spectrum oils are found to be more effective on our endocannabinoid system and is commonly referred to as the 'Entourage Effect'.

**Terpenes** found naturally in the Cannabis plant have been specially blended to add to the 'entourage effect' as well as enhance certain specific effects, namely:

### Energise | Focus | Relax | Repair

#### Energise

**When you're looking for a true energy boost to pull you through the hustle of your day!**

This terpene blend will provide a fresh and uplifting effect while helping to reduce any anxiety or depressive moods. In addition to an energising boost, this blend of terpenes will promote mental clarity ensuring you are ready to focus on the day ahead. It also provides gentle pain relief that can soothe any minor aches or pains. Some of the terpenes in this blend are known for clearing the airways and relieving nasal congestion as they have decongestant properties, creating a clean and refreshing effect on the body.

#### Focus

**Keep your attention and mind focused on completing the task!**

The terpene is great for improving mental clarity and also acts as a memory enhancer. It improves concentration by providing uplifting and anti-anxiety effects. It also boasts pain relief and anti-inflammatory properties. The appetite suppressant properties have the potential to sooth hunger so as not to distract from the task at hand. The terpene blend will only serve to relax an overly loud anxious mind, instead of having drowsy effects, thus keeping you alert and focussed.

#### Relax

**Time to unwind from the stresses around us!**

The terpenes in the Relax products have shown benefits of not only a calming effect but also helps with nausea relief, as an anti-inflammatory and with pain relief, which aids the body further into a relaxed state. It helps soothe the mind and body without causing excessive drowsiness. The anti-anxiety and anti-depressant properties aid in achieving a harmonious mindset. The blend also has terpenes that act as appetite suppressants which further calms the body.

#### Repair

**Body in need of healing!**

The terpenes in the Repair products ensures an uplifting experience with the possibility of combatting symptoms of depression and anxiety as well as a reduction of muscle spasms and pain from inflammation, that may have been caused by pushing the body beyond its reasonable limits. The pain relief, immune support and antioxidant properties can have a positive effect on bodily functions and reduce the possibility of getting ill. One of the other terpenes promotes bone growth and repair and also helps to improve mental focus.

## 10ml Oral Sprays and 30ml Tinctures

Undoubtedly our top-sellers, the Oral Sprays and Tinctures are taken orally / sub-lingually (under the tongue, like many homeopathic medicines) and can be used as a daily supplement or to target a specific condition(s). Purchase the easy to carry 10ml Oral Spray for on-the-go use or the larger more cost-effective 30ml Tincture.

## CBD Lite

Using the natural flavourings of ginger and tumeric as well as evening primrose oil, we have introduced our new range of Elixir CBD Lite!

Affordable and with bursting natural flavours, this is the ideal "on the go" oral spray solution.

## CBD Chewables & Capsules

An easier way to ingest your daily dosage of CBD. Now available in chewables and capsules.

## Vape Pen Rechargeable Battery

Includes a USB Charger

The Rechargeable Battery may be recharged up to 100 times.

### CBD Disposable Cartridge

30mg CBD Isolate  
Good for up to 200 puffs.

**Flavours:**  
Blackcurrant  
Forest Fruit  
Double Menthol  
Heizen  
Strawberry & Lime

**Effects:**  
Energise  
Focus  
Relax  
Repair

Vaping has been observed to be one of the most efficient methods of CBD intake, boasting a 70-80% level of absorption.

The Elixir Rechargeable Battery may be recharged up to 100 times.

All our Vape Pen Disposable Cartridges are good for up to 200 puffs after which they can be disposed of.

It is important to note that our CBD Vapes DO NOT contain nicotine, synthetic cannabinoids or THC.

## E-Liquids

As an extension to our Disposable CBD Vape Pens, we have now included E-Liquids to our range for those who prefer using their own vaping devices. With 600mg of CBD per 30ml bottle, you can be rest assured that Elixir E-Liquids have one of the highest CBD contents available on the market (within legal limits).

Elixir also boasts the highest quality Isolates in their E-Liquids. A bonus of having such a high-quality Isolate is that our CBD can endure much higher temperatures before burning – upwards of 250 degrees! This makes Elixir E-Liquids even more ideal for vaping! Competing Isolates have been observed to lose up to 20-30% of their total CBD content when heated beyond 200 degrees. Ours loses a maximum of only 2%!

**Flavours:**  
Blackcurrant  
Forest Fruit  
Double Menthol  
Heizen  
Strawberry & Lime

**Effects:**  
Energise  
Focus  
Relax  
Repair

## Edibles

You can have your daily dosage of CBD in a sweeter way - enjoy the chocolate the way you like it best!

A 155g premium chocolate spread with 20mg CBD

## CBD Coffee Pods

The mellow and mild, flavourful Arabica coffee paired with CBD is the perfect calming kickstart we all need.

10 x CBD Coffee Pods per pack  
(100mg CBD / 10mg CBD per Pod)

## CBD Rooibos Teabags

The perfect every morning and every evening cuppa!

The balancing combination of the Rooibos antioxidants and the calming effect of CBD, will help keep the body in homeostasis.

10 x CBD Rooibos Teabags  
(80mg CBD / 8mg CBD per teabag)

## CBD COFFEE

Freeze dried coffee to give you your daily caffeine fix with added “calm”.

24g

(Approx 14 servings)

## Water Soluble CBD

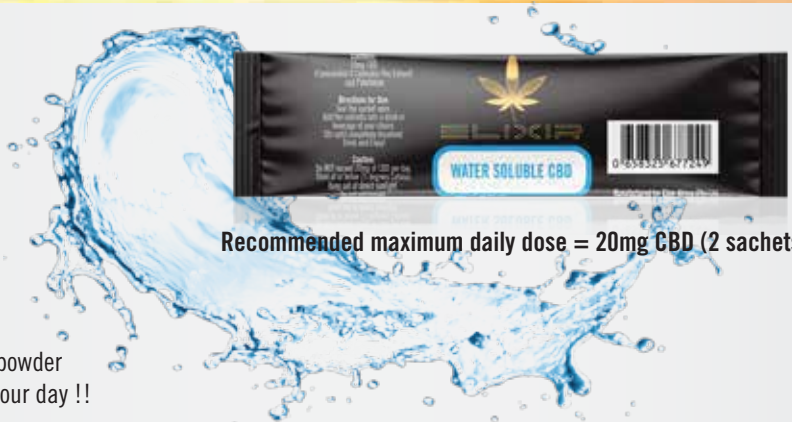

Our water soluble CBD powder is a great way to start your day !!

Water soluble CBD sachets make getting a regular dose of CBD simple and convenient.

This CBDelicious, water soluble CBD powder is a great way to get CBD without using an oil tincture. Traditional CBD oil tinctures don't blend as well into liquid drinks because the oil is less dense than water and separates easily.

Studies have found that water soluble CBD provides the best absorption of CBD into our body.

Simply tear the sachet open and add the contents into a drink or beverage of your choice. Stir until completely dissolved. Drink and enjoy the benefits of CBD.

Recommended maximum daily dose = 20mg CBD (2 sachets).

## 100ml 100mg CBD Massage Oil with Relax Terpene Blend

A massage oil with 100mg of CBD as well as added RELAX terpenes.

## CBD Beard and Hair Oil

Known to encourage hair growth, treat scalp conditions, treat stress induced hair loss and preventing hair damage and breakage, Elixir CBD makes the perfect beard and hair oil solution.

Infused into Jojoba and Argan oil with the traditional scents of

- Oud and
- Honey Noir, Oak and Cedarwood

## CBD Pain Roll-On

In addition to the anti-inflammatory and pain management properties of CBD, we have added other plant based oils that assist with relieving of pain, skin irritation and itching. The added Eucalyptus Globulus leaf oil is known to help arthritis and skin ulcers.

Due to the high combination of ingredients in this product, this makes as a good topical treatment for conditions ranging from mosquito bites and skin irritation to pain relief.

## CBD Pain Balm

Our pain balm has added wintergreen and lavender for a warming and calming effect. Lavender and peppermint oil are known to have anti-inflammatory, anti-infective and pain relieving properties.

These 2 ingredients with the added benefits of CBD makes the ideal trio in this balm.

## Pet CBD

For those without a voice in our care. We all love our pets and spend huge amounts of time and money ensuring their physical and mental wellbeing. With this in mind, we at Elixir formulated a pleasant tasting Pet CBD for our furry or hairy friends. With 300mg of CBD per Bottle, one can simply add a few drops to their food daily or as when required. Perfect to help keeping them calm during transportation or when celebrations ask for fireworks! An essential for their overall health and well-being.

## Disclaimer

*\*All products sold and displayed are not in any way promoted for sale as medicinal products and should never be used to replace prescribed medicines. We do not make any claims of medical benefits from the use of CBD products. If you are ever unsure about whether you should be taking CBD or if you are already receiving other medication or treatment, always consult with your doctor / pharmacist.*

*CBD is a new and exciting world but it's never a replacement for professional medical advice / care.*

Elixir Africa (Pty) Ltd. is a forerunner in providing customers with reputable, accredited and certified CBD products specifically targeting health and wellness, ensuring compliance within the legal framework of South Africa. We carry a full range of premium grade CBD sprays, tinctures, vapes, e-liquids, edibles, massage oil kits and pet CBD. Our sprays and tinctures have accompanying Nappi codes, which means clients may claim back from their medical aid savings.

Our products are True-Zero THC free (non-psychoactive). This is our CBD seal of quality. It represents our promise that our CBD products will never contain any THC. We have carefully selected our suppliers, who have taken great care in sourcing their raw materials which are some of the only completely THC free, isolates and distillates in the world, so we can make this claim with total confidence. Their use of proprietary technology means that our CBD isolate is of the highest possible purity with even the lowest trace amounts of THC completely removed - a fact backed by rigorous batch-testing, demonstrated in both our international and local certificates of analysis (COAs).

Beyond this, our seal represents our guarantee of quality, safety and reliability. All aspects of our CBD products have been carefully considered and extensively tested to deliver ranges you can have the utmost confidence in, with pin-point accuracy and full traceability. If it carries our seal - you can be certain it is a CBD product you can trust.
